---

### Pricing Information

---

All Full Build prices shown on each design's individual page on our website are approximate and should be used as a guide to the cost of having a completed EasyBuild home constructed on your site.

Full Build Prices vary between regions, and can change significantly depending on the location and condition of your section, what services you may need to install, and local pricing conditions.

This inclusion list relates to the Full Build Prices shown on our website. Talk to your EasyBuild Preferred Builder or Contact Us for a comprehensive quote that takes your site requirements and chosen specifications into consideration.

All prices displayed are based on our Standard House Pack, built on concrete slab foundations with Duragroove primary cladding and Nuline Plus weatherboard features.

Alternative cladding variations, timber floor packs (for sites requiring timber pile foundations), seaspray zone requirements or other amendments may incur additional costs.

The price excludes materials for decking and verandahs, which are an optional extra.

Please note that to meet Code Compliance standards, houses on timber pile foundations may be required to have decking or suitable steps outside all external doors.

All prices stated exclude GST and are subject to change.

---

### Inclusions

---

Plans	Customised set of plans including site specific setout, site information and preparation of your building consent documentation. The fee charged by your local Building Consent Authority for assessing your application is not included. All plans are based on very high wind zone, and cover earthquake zones 1 to 3 (soil classes A to E).
Master Build Guarantee	10 year Master Build guarantee.
Delivery	Cost of delivery of your EasyBuild House Pack to your specific site. We have set delivery costs to the North and South Islands at \$2,600 and \$3,600 respectively, however deliveries to remote or difficult to reach areas or where the building site is difficult to access may incur additional costs. Our Full Build price includes an allowance of \$2,600.
Foundations	House to be built on a RibRaft or concrete slab foundation. Our Full Build price includes a PC Sum allowance applicable for a level site with clear access to NZ Building code 3604 standard on good ground conditions.
Hardware	All required hardware for construction of components within the EasyBuild House Pack.

Floor Pack – for Concrete Slab Build	Brackets, packers and required hardware.
Framing	Pre-cut structural and internal framing. All timber is treated to the required standards for each purpose.

Exterior Panels	Pre-built exterior panels, fully lined and insulated with pre-installed windows and external doors. Exterior panels include a rigid air barrier and materials for a ventilated cavity are provided, making your home stronger and more resistant to water ingress. Conduits in the panels allow for easy wiring.
Windows and Exterior Doors	Fletcher SmartFit Windows, pre-installed into exterior panels. Fletcher SmartFit Doors, pre-installed into exterior panels. Fletcher SmartFit Sliding Doors. Pre-installed aluminium front door. Available in Matte Grey Friars or Matte Sandstone Grey. Palladium Silver joinery for windows, doors and sliding doors.
Ceiling Sheets	Triboard ceiling sheets.
Roof Ventilation	Roof ventilation material to be installed along each purlin, allowing increased airflow within the roof cavity, and further protecting your home from moisture.
Roofing	Colorsteel Endura pre-painted corrugated roofing, including ridge flashing, barge flashings and fixings. Available in Grey Friars or Sandstone Grey.
Spouting	Marley Classic white spouting and downpipes.
Soffit lining	Fibrous cement sheet soffit and jointers.
Cladding	Duragroove Smooth with Nuline Plus weatherboard features. Other cladding choices are available, however costs will vary.
Cavity Battens	Treated timber cavity battens, allowing an extra layer of protection between your exterior panels and weatherboard, further protecting your home from moisture.
Interior Linings	GIB Standard plasterboard for internal wall linings. GIB Aqualine for wet areas, including kitchen and bathrooms. GIB to be plastered to a paint finish. Bevelled 60mm skirting, bevelled 40mm scotia, bevelled 40mm architraves to windows, bevelled 60mm architraves to interior door frames.
Interior Doors	Split jamb pre-hung doors. Flat jamb sliding wardrobe doors. Split jamb pre-hung wardrobe doors (selected bedrooms only).

	All door handles and catches, including passage and privacy sets (Schlage Rubens Satin Chrome) and door stops.
Kitchen	Kitchen, including benchtop, single bowl stainless steel sink insert with draining board and pre-finished cabinets in 16mm melamine on moisture resistant particleboard substrate, colour Bestwood Arctic White Embossed. Benchtop 37mm laminate HPL in colour Black Alicante or Silver Sand Mist Pearl.
